Dashboard with patient vitals

The interface is titled "MAKE AN APPOINTMENT" and includes a progress bar with three steps: "Select", "Book", and "Confirm". Below the progress bar, there are input fields for "Patient Name" and "Appointment Date". A pie chart is visible in the bottom left corner, and "Book" and "Cancel" buttons are in the bottom right.

Patient Can Select Appointment Time

The screen shows a payment summary:

- Net Amount: \$100.00
- Net Payment: \$500.00

 Below this is a section titled "Enter Card Details" with a form for card information and a "Payment Method" dropdown menu.

Payment Processing

The form is titled "Prescription TEST FACILITY Federal Street" and contains the following patient information:

Patient Name	Ronald Deason	Visit ID	40307
Patient Age	43	Visit Date	10/07/2020
Gender	M	Doctor Name	Tony Wenger
Address		Regt. No.	30799004

 The prescription details are:

- Chief Complaint: Eye irritation
- Diagnosis: Dry eye
- Rx: Clear eye lubricant drops, 1 drop 3 times for 10 days

ePrescription

The note is titled "Dr. Tony Wenger" and "Patient: M Deason". It includes a "Diagnosis" section with a dropdown menu and a "Save" button at the bottom.

Note Diagnosis

Blood Pressure Reading

ECG Reading

The interface is titled "Next Steps" and "Patient ID: Deason". It features a large blue "S" icon for Skype, a "Skype" button, and a "Clear eye lubricant drops, 1 drop 3 times for 10 days" instruction. There is also a "Call Now" button.

Make Skype Call For Tele / Video Consultation

Our Telemedicine Solution Captures Patient Vitals From Digital Medical Devices.

Telemedicine and homecare solutions allows patient records to be captured seamlessly from medical devices and transferred instantly to the doctor in a hospital or clinic to give a Tele/video consultation to the patient. We have integrated our Telemedicine solution with medical devices – Oximeter, Thermometer, Blood Pressure device and ECG device.
