APPOINTMENT SCHEDULER

The screenshot shows two views of the Appointment Scheduler. The top view is a calendar for January 2026, with a date picker set to 09/01/2026. The bottom view shows a time slot selection interface with a circular clock face divided into Morning, Afternoon, Night, and Evening segments, and a list of time slots from 05:00 to 07:45.

Schedule appointments through appointment scheduler, selecting the date and time slot.

RESCHEDULE APPOINTMENTS

The screenshot shows the Reschedule Appointments interface. It includes a search bar for Patient Name (Mr Rajesh Raj) and a dropdown for Doctor (Terry Kemper). A modal window titled 'Search Patient' is open, showing the patient's details and a 'Reschedule' button.

Reschedule appointments in the appointment scheduler.

WALK-IN PATIENT APPOINTMENT SCHEDULING

The screenshot shows the Walk-In Patient Appointment Scheduling interface. It includes a search bar for Patient Name (Mr Nidhi Kulkarni) and a dropdown for Doctor (Terry Kemper). A table lists walk-in patients with columns for Patient ID, Patient Name, Provider, Time, and Status. A 'Create Walk In' button is visible.

Schedule walk-in appointments for walk-in patients in walk- in appointment scheduler.

VISIT MANAGEMENT

The screenshot shows the Visit Management interface. It includes a search bar for Patient Name and a dropdown for Visit Status (Check Out). A table lists visits with columns for Patient ID, Patient Name, Visit ID, Mobile No., Age, Location, Category, Status, Billing, Doctor Name, and Appointment Date.

Manage patient visits according to visit category, Scheduled, Arrived and Check out status.

BILLING

The screenshot shows the Billing interface. It includes a search bar for Patient Name and a dropdown for Billing (Bill). A table lists fees and charges with columns for Description, Charges, and Delete. A 'Total' row shows the total amount due.

Generate OPD and surgery billing in MURx by selecting the relevant billing head, OPD and Surgery.

PAYMENTS

The screenshot shows the Payments interface. It includes a search bar for Patient Name and a dropdown for Payment Method (Cash, Cheque/Bank, Card, Other). A table lists payments with columns for Patient ID, Patient Name, Payment Method, Amount Paid, and Remark.

Bill payments done through Billing and Payments. Select the payment method.
